

ANY MODIFICATIONS TO THESE SPECIFIC LICENSE TERMS REQUIRES PRIOR WRITTEN APPROVAL FROM THE PRICING COMMITTEE

Components-Based Licensing (Users/Servers)

Software	Specific License Usage Right
InfoVista Server – Production	Each License may only be installed and used on a single computer. Each License may function only once at any given time.
Fail Over InfoVista Server – Production	Each License may only be installed once and used on a single computer during a period in which an InfoVista Server – Production has failed.
InfoVista Production Access License	Each License represents a Logged-On Access Right to use InfoVista Server - Production. Logged-On Access Right shall mean the ability for a user to log on to the software.
InfoVista Server – Workshop	Each License may only be installed once and used on a single computer.
InfoVista Workshop Access License	Each License represents a Logged-On Access Right to use InfoVista Server – Workshop. Logged-On Access Right shall mean the ability for a user to log on to the software.
VistaBridge	Each License may be installed once and used on a single computer for a single external data source.
VistaCockpit	Each License may be installed once and used on a single computer for the number of InfoVista Servers allowed by the VistaCockpit License acquired, or for VistaMart, VistaPortal or VistaPortal SE.
VistaDiscovery	Each license may be installed once and used on a single computer.
VistaLink for Cisco ISC	Each License may be installed once and used for collecting data from a Cisco IP Solution Center.
VistaLink for Alcatel 5620 SAM	Each License may be installed once and used for collecting data from a single Alcatel 5620 SAM.
VistaLink for Crannog Netflow Tracker	Each License may be installed once and used on a single computer.
VistaMart	Each License may be installed once and used on a single computer.
VistaMart Server Access License (SAL)	Each License represents an access right to export data from an identified InfoVista Server - Production into an identified VistaMart.
Vista Plug-in	Each License may be installed once and used on a single computer for the type purchased.
VistaPortal Access License	Each License represents a Logged-On Access Right to use VistaPortal and its related modules via a web browser. Logged-On Access Right shall mean the ability for a user to log on to the software.
VistaPortal Named Access License	Each License represents a Named Access Right to access VistaPortal Server and its related modules via a web browser. Named Access Right shall mean a user account that has the ability to log on to the software.
VistaPortal Server	Each License may be installed on multiple servers and accessed by the number of VistaPortal Access Licenses purchased.
VistaPortal Standard Edition (SE) Access License	Each License represents a Logged-On Access Right to use VistaPortal SE via a web browser. Logged-On Access Right shall mean the ability for a user to log on to the software.
VistaPortal SE Server	Each License may be installed on multiple servers and accessed by the number of VistaPortal SE Access Licenses purchased.
VistaProvisioner for InfoVista Server	Each license may be installed once and used on a single computer for an InfoVista Server.
VistaView	Each License may be installed and used on multiple computers.
VistaTroubleShooter Server	Each License may be installed and used on a single computer.
Crannog Netflow Tracker	Each License may be installed and used on multiple computers and is limited to the number of devices - router, switch, probe or other applicable appliance - that exports NetFlow-compatible data to NetFlow Tracker, which is indicated in the part description order. In the event that no device limitation is provided, a single device limitation shall apply.
