

COURSE DESCRIPTION

Infovista® Certified Administrator (IVCA)

Online – 3 hours

The IVCA is first-level certification for the VistaFoundation® (VF) architecture from Infovista. The IVCA exam is designed to test candidates’ understanding of the VistaFoundation platform from an administrator’s point of view. The exam content is based on the ‘VistaFoundation - Administration course’.

Student Profile

The successful IVCA graduate has a good working knowledge of the VistaFoundation platform and is able to successfully provision, troubleshoot and escalate issues for a VF solution. The IVCA profile is therefore typically one of engineers and service support personnel, as well as technical sales and consultants.

Prerequisites and Related Courses

Candidates should have attended the ‘VistaFoundation - Administration’ course. A solid practical and theoretical understanding of the VistaFoundation platform is necessary.

Exam Format

The IVCA exam is an on-line test comprising multiple-choice questions with a total time limit of 3 hours. To pass the exam, the candidate must achieve a score of at least 75%. The exam is an “open-book” exam and can be taken using any workstation having Internet access. The candidate must provide the workstation, which possibly has an installed VF solution and specifically all relevant product documentation. The exam is available in English language only. Upon successfully passing the exam, the candidate will receive a certificate with a validity of 2 years.

IVCA Registration

The certification is free for all candidates who have followed the ' VistaFoundation - Administration course'. After the course, they will automatically receive an email inviting them to take the certification.

For details on taking the certification as an independent candidate, please contact us via e-mail at: training@infovista.com.
