

COURSE DESCRIPTION

Ativa™ App Report Designer

Duration : 1 day

Course overview

Ativa™ App offers a set of standard, out-of-the-box Dashboards and Reports that enable Ativa™ App end users to drill into and analyze important network performance indicators and trends. Upon completion of this hands-on training, students will have a working knowledge of reporting capabilities and how to apply it within their own environment.

Student Profile

This course is designed for future designers of Ativa™ App reports and dashboards.

Prerequisites and Related Courses

Prerequisites: an understanding of mobile and/ or fixed network performance assurance would be beneficial.

System access

As student will practice the development of reports and dashboards, it is highly recommended each trainee has his own account configured to access the system during the training

Course format

This course can be delivered either in-class or remotely through video conference.

Course Objectives

Upon completion of this course, students will be able to:

- Understand Perspective capabilities
- Create and customize Dashboards, Reports and Alarm Dashboards
- Save, import and export reports and dashboards
- Create and customize views
- Modify threshold values of Alarm Dashboards
